

HB2034 school bus drivers; license requirements (Fillmore)

Under current law, school bus drivers are required to possess:

- The appropriate commercial driver license (CDL) for the size of the school bus being operated, issued by the Arizona Department of Transportation (ADOT)
- A bus endorsement issued by ADOT
- A school bus certification issued by the Arizona Department of Public Safety.

This bill allows a person with a CDL issued by an adjacent state to operate a school bus in Arizona.
