

HB 2119 schools; academic credits; transfer (Udall)

- Requires an accredited public high school to accept credits earned by a student at another accredited public high school if an in-person proctored final exam accounted for a significant portion of the student's grade.
- Requires a high school to transfer core credits as core credits and elective credits as elective credits if earned at another accredited public high school.
- Prohibits a high school from requiring a student to take an examination in order to receive the transfer credits earned at another accredited public high school or from transferring the credits as prerequisite requirements.
- Includes Arizona Online Instruction (AOI) in the definition of "accredited public high school"
