

An Upcoming Opportunity  
From the Colorado Paraoptometric Section Continuing Education Program

## Gas Perms – Materials and Designs. What, when and why? Speaker: Bill Masler, FCLSA, NCLEC President, AccuLens

This course will cover a variety of contact lens topics;

- An overview of the different types of gas permeable materials
- Differences between contact lens manufacturers
- The newest lens designs and what they are used for
- Custom soft lens toric lenses; why they are “custom,” who would use these and why?
- Attendees will be given a tour of Accu-Lens, with explanations of the DAC CNC 2 axis lathe, Rotlex equipment and finishing techniques.

Date: Tuesday, November 2nd  
6:30 – 8:30pm  
Location: Accu-Lens  
5353 W Colfax Avenue  
Denver, CO

Please RSVP to Jennifer Chaney at 719-599-5083x1 or [jchaney@chvision.com](mailto:jchaney@chvision.com). Dinner provided, and class is from 6:30 to 8:30, including a tour of the lab. This course is offered with 2 AOA credits available.
