School Improvement

The West Georgia RESA STEM Conference is a regional convening of system, schools, and teacher leaders dedicated to increasing student success in science, technology, engineering, and mathematics (STEM) in all grades. The purpose of this conference is to improve STEM education, better align instruction to local workforce needs, and to promote deeper understanding of STEM best practices and resources.

A few of the noted presenters include:

Dr. Juan-Carlos Aguilar, Science Program Manager, GDOE
Dr. Kelly Price, Curriculum Coordinator Science/Math/Gifted/Health-PE Programs, Forsyth County Schools,
GSTA Director
Dr. Donald White, Science Curriculum Specialist, Coweta County Schools

Please join us on Feb. 11-12, 2013
for this 21st Century experience!

Sessions will focus on the implementation of STEM disciplines in a manner that reflects the interdependence of STEM subjects, as well as sessions about unique partnerships and approaches employed by successful schools and systems.

Break-out sessions will emphasize:

- Leveraging Community Partnerships
- Initiating a STEM Program and Climate
- Engaging Students and Teachers in STEM Programs and Initiatives
- The Integration of STEM and the Liberal Arts (K-12)
- Web 2.0 Technology Tools (K-12)
- Elementary Issues, Resources, and Ideas (K-5)

Central Education Center (CEC)
160 Martin Luther King, Jr. Drive
Newnan, GA 30263

Lunch will be provided!
