Fired Up About Google Forms: "Using Google Forms for Assessments & Instruction"  
Feb 12th, 2019

**Workshop Description:** Learn how to use Google Forms to send surveys, plan events, give self--graded quizzes, and collect data in an easy, streamlined way! Educators will also learn how to use this powerful tool to create differentiated & self-paced lessons.

**Objective:** Educators will be able to create assessments and instructional content using Google Forms. They will also learn how to organize and use Google Form data. Projects will serve as artifacts of learning.

**Target Audience:** Teachers, administrators, support staff

**Prerequisites:** This workshop is intended for those who already have foundational knowledge of Google Forms and Google Drive OR have taken the "Google Apps 101: Google Apps for Newbies" course. All attendees will need a laptop w/ Chrome, charger, and personal Gmail account.

**Next Steps:** After this workshop, educators will benefit from taking other "Level 1 Teacher-Centered" workshops that center around creating materials for **student consumption**. These workshops generally focus on a single Google App and it's many applications.

"Level-2 Student-Centered" workshops can also be taken. These workshops center around **student-creation** and projects.
