

Data Teams to Drive Common Core Implementation Summit

The
Leadership
and Learning
Center®

Collecting and organizing student performance data is one of the most important aspects of standards implementation. The Using Data Teams to Drive Common Core Implementation Summit will support leaders and educators with a proven process and structure for aligning data analysis, assessment and instruction within the Common Core State Standards. Implementing this process is proven to dramatically increase student achievement. Learn how to move from “drowning in data” to using information to make better instructional decisions.

Leave the day with the knowledge of how to:

- Connect best practices in education
- Use formative and summative assessments in the classroom
- Align common formative assessment to standards
- Connect “unwrapped” standards to common formative assessments
- Apply understandings of assessment literacy
- Develop and refine common formative assessments
- Align Data Teams with the implementation of Common Core
- Implement distributed leadership
- Empower educators
- Use high-leverage strategies
- Organize for success
- Monitor student achievement

Who should attend? Classroom Teachers, Mentors, Principals, Directors of Education, C & I Directors, Asst. Supts., School Board Members

Summit Date and Location:

May 16, 2012
Macon, Georgia
