Social Media & Child Exploitation!

Featuring Keith Clark, APA, Wayne County

In our social media driven world, victimization of minors has become increasingly prevalent. This important training provides you the information you need to help keep kids safe, understand cyberbullying, and it attacks misconceptions about commercial domestic sex trafficking of minors.

Through this training, you will learn about Child Sexually Abusive Materials (CSAM), the child pornography laws in Michigan, how to recognize illegal images, how child pornography is traded, and the dangers of CSAM.

Keith will also provide a detailed case study of Princess_2003, in which the mother of a 7 year old was involved in creating Child Sexually Abusive Material for commercial distribution.

This training is a “must” for all levels of the prosecutorial process, and vital for advocates to clearly understand the pervasiveness of cyber crimes, particularly when children are involved.

Keith Clark has over 24 years in the criminal justice system, as a probation officer, a criminal defense attorney, and as a prosecutor. He has been with Wayne County Prosecutor's Office since 2004. He has conducted trainings on technology, digital evidence, forensic interviewing, and commercial sexual exploitation for numerous state and national organizations.

WARNING
